

## Contents

Case Taking.....	1	The Carbons.....	80
Case Analysis .....	3	Extraction where four carbons appear .	80
Case I .....	6	Magnesia carbonica .....	87
Equisetum hyemale .....	11	Case 13 .....	87
Case 2 .....	15	Magnesia muriatica .....	90
Bambusa arundinacea.....	19	Case 14.....	91
Case3.....	22	Magnesia sulphurica .....	95
Case 4 .....	25	Fundamental themes of Magnesium salts	96
Castor equi.....	28	Case 15 .....	98
Case 5.....	31	Magnesia fluorata.....	101
Aluminium silicata .....	35	Case 16.....	103
The S///ca-like Family .....	37	Magnesia iodata .....	105
Comparison between Aluminium, Silica and Aluminium silicata.....	40	Case 17.....	107
Case 6 .....	42	Colocynthis.....	110
Insecurity.....	46	Luffa operculata .....	III
The Kalis.....	46	Comparison between Luffa operculata and Colocynthis.....	113
Kali silicum.....	48	Case 18.....	113
The Arsenicum Salts .....	50	Carbo vegetabilis .....	116
Case/ .....	52	Concepts and Themes .....	118
Sphingurus martini .....	55	General Concepts of Carbons.....	119
Comparison of <i>Sphingurus</i> and <i>Natrum muriaticum</i> .....	58	Carbon and Silica-like differentiation...	121
CaseS.....	59	Case 19 — Carbo animalis .....	122
Case 9.....	60	Case 20 - Germanium I.....	125
Case 10 .....	61	Case 21 - Germanium 2.....	129
Calcarea silicata.....	63	Case 22-Adamas I .....	131
Themes of the Silica-like .....	64	Case 23-Adamas 2 .....	134
Case I 1 .....	65	Comparison of Germanium and Adamas .....	136
The Magnesium Salts.....	71	Seminar Review and Discussion .....	136
Magnesia phosphorica.....	74	Index...	..138
Case 12.....	76
